

KSSPAS Student Conference and Careers Fair

Moni Choudhury

Physician Associate

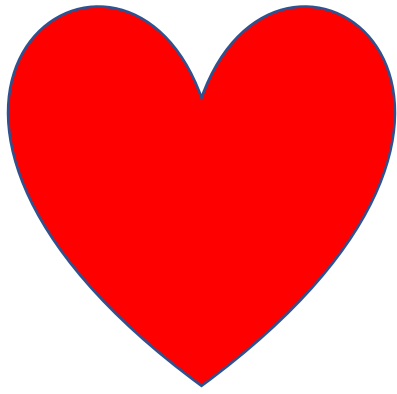

Surrey and Sussex NHS Trust

Slightly different angle.....

- Here to talk to you about **Acute Medicine** and **The Society for Acute Medicine (aka SAM)**

What is Acute Medicine to Me?

- It is a branch of medicine which involves the assessment and management of acutely unwell patients on the medical Take.
- Diverse
- Varied
- Unpredictability
- No two days are the same
- Always keeps me on my toes!
- Learn and practise additional skills
- Use of Point of Care Ultrasound – great skill to have when clerking an unwell patient with for example Shortness of Breath

Acute Medicine

The Society for Acute Medicine

- Is a relatively new body and has over 1000 members
- It is a representative body for Acute Medicine nationally
- Promote education and training
- Sharing good practice
- Research
- Improving the management of patients with acute medical problems

Why Join

Great for generalists! – CPD events (12 points for two days)
